

# AMBAR

## CENTRAL TABLE

Ethnic accents and African references for the Ambar coffee table, whose structure consisting of base and top in precious Carbalho wood evokes the typical African percussion. The decorative mirror in the center of the top adds a luminous note, as well as the thin structure in polished brass, which contrasts with the materiality of the wood making the whole lighter and elegant.

Structure in polished brass.  
Base and top in matte dark wengé  
Carbalho wood. Top with central  
element in natural mirror.

*Other finishings and upholsteries  
available upon request from  
Etro Home Interiors collection.*
