

ZIGGY

CONSOLE

Made in smoked frisé eucalyptus wood, the Ziggy console is supported by legs recalling the zigzag shape of the thunderbolts. The mythological inspiration, one of the dominant themes in the 2019 collection, is expressed in this case in an element with a minimalist, essential and scenographic design. A single line with brass profiles, luminous like the lightnings thrown by Zeus in Greek mythology and further embellished by the symbol that recalls the Etro logo.

Structure in smoked eucalyptus frisee wood. Profile in polished brass.

Other finishings available upon request from Etro Home Interiors collection.
